Content of reflections appropriate	☐	☐	☐	☐	☑
Project images are high quality	☐	☐	☐	☐	☑
Spelling and grammar are correct	☐	☐	☐	☐	☑

What was your overall first impression of the website?

I was intrigued with the graphics, pulled me in and I wanted to explore more.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

I did not have any technical difficulties, it was easy to navigate.

What do you feel are the most effective design elements of this web portfolio?

I feel that the visual examples made understanding concise. I loved the modern colors, and the verbage was modern.

What would you suggest be changed with the design or content of this web portfolio?

I like the artistic design just the way it was created. I would make the rock paper scissors interactive so that when one saw it and clicked on it, it would actually play the game right there on the page.
